B 2 – Practices for transitioning towards a more sustainable economy

<p>Short description of specific practices for transitioning towards a more sustainable economy. If the company does not have them in place, leave it blank.</p> <p>(This disclosure does not apply when the undertaking prepares its sustainability report using the Main Level).</p>	<p>All potential investments are assessed in three steps, value, cost and sustainability. We have started a sustainability group who has implemented a company sustainability strategy. We have three consultants that during 2024 have completed their Whole Life Carbon assessment training (WLCA) and are now certified by RICS (Royal Institution of Chartered Surveyors). We are also partnering with the EU Project NEB, New European Bauhaus.</p>
